FIFTY ENGRAVINGS OF PATTERNS.

PREFACE
To the Seventh Edition.

 THE examples of knitting contained in the following pages, have been selected with the greatest care,—many are original,—and the whole are so arranged as to render them comprehensible even to a novice in the art.

Knitting being so often sought, as an evening amusement, both by the aged and by invalids, a large and distinct type has been adopted,—as affording an additional facility. The writer feels confident in the

recommendation of "MY KNITTING BOOK," and humbly hopes it may meet with the same liberal reception that has been accorded to her "HAND-BOOK OF NEEDLEWORK."

The numerous piracies that have been committed on her last-mentioned work, mainly led to the publication of this little volume; but she could scarcely have anticipated the sale of so many thousands in so short a space of time.

MY KNITTING BOOK.

Introduction.

NITTING was unknown in England until the middle of the sixteenth century. Although generally attributed to the Spaniards, the Scots lay claim to the invention of the art, from the fact of the first company of Stocking Knitters, established at Paris, having taken for their patron St. Fiacre,—who is said to have been a son of one of the kings of Scotland. It is certain, however, that knitting was practised both in Spain and Italy prior to our knowledge of it in England. Having, in a former work, entered fully into the history of this useful

art, it is unnecessary again to pursue the subject; we shall, therefore, for the better understanding of the following directions, at once commence with an

Explanation of the Terms used in Knitting.

To cast on.—The first interlacement of the cotton on the needle.

To cast off.—To knit two stitches, and to pass the first over the second, and so on to the last stitch, which is to be secured by drawing the thread through.

To cast over.—To bring the cotton forward round the needle.

To narrow.—To lessen, by knitting two stitches together.

To seam.—To knit a stitch with the cotton before the needle.

To widen.—To increase by making a stitch, bringing the cotton round the needle, and knitting the same when it occurs.

A turn.—Two rows in the same stitch, backwards and forwards.

To turn.—To change the stitch.

To turn over.—To bring the wool forward over the needle.

A row.—The stitches from one end of the needle to the other.

A round.—A row, when the stitches are on two, three, or more needles.

A plain row.—That composed of simple knitting.

To pearl a row.—To knit with the cotton before the needle.

To rib.—To work alternate rows of plain and pearl knitting.

To bring the thread forward.—To bring the cotton forward so as to make an open stitch.

A loop stitch.—Made by bringing the cotton before the needle, which, in knitting the succeeding stitch, will again take its own place.

To slip or pass a stitch.—To change it from one needle to the other without knitting it.

To fasten on.—The best way to fasten on is to place the two ends contrariwise, and knit a few stitches with both together. For knitting, with silk, or fine cotton, a *weaver's knot* will be found the best.

To take under.—To pass the cotton from one needle to the other, without changing its position.

Pearl, seam, and rib-stitch.—All signify the same.

N. B. The *sizes* of the *needles* are given according to the *Standard Filière*.

The following engraving represents the *Standard Filière*, or Knitting and Netting Needle Gauge, an instrument invented some time since by the authoress, and now in general use, by which the different sizes of knitting and netting needles can be ascertained with the greatest accuracy.

[The Standard Filière.]

It is necessary, in giving or following directions for knitting, to caution knitters to observe a medium in their work—not knitting either too loose or too tight.

Siberian Cuffs.

Nine shades of German wool, used double, will be required.—No. 8 needles.

Cast on sixty-four stitches with the darkest shade;—knit three plain rows.

Fourth row—bring the wool forward, knit two together.

Repeat these four rows (which form the pattern) nine times,—taking a lighter shade of wool each time.

A Knitted Silk Cuff.

Coarse black netting silk.—Four needles, No. 22. Cast on twenty-eight stitches on each of three needles:—knit two plain rounds.

Third round—bring the silk forward, slip one; knit one; pass the slipped stitch over it; knit one; pearl one.

Repeat the third round, until the cuff be of the depth required; then,—knit two plain rounds to correspond with the commencement.

Open Stitch for Cuffs.

With coarse silk.—Four needles, No. 22.

Cast on any even number of stitches, on each of three needles.

First round—knit two together.

Second round—bring the silk forward, knit one.

Third round—plain knitting.

Repeat from the first round.

Very Pretty Cuffs.

Two colours are generally used—say red and white. They are prettiest in four-thread embroidery fleecy, or German wool.—Two needles No. 16, and two No. 20, will be required.

Cast on forty-six stitches.

 red.

Repeat these two red and white stripes, alternately, four times, and finish with the two stitches together, as at the commencement.

The cuffs, when finished, roll over at the top.

Muffatees with two Colours.

German wool,—three needles, No. 25. The prettiest colours are cerise and brown;—commencing with the brown. Cast on eighty-eight stitches, viz.—thirty on each of two needles, and twenty-eight on the third.—Knit four rounds,—two stitches of each alternately pearl and plain.

Knit one plain round.

Pearl three rounds.

The above is all with one colour,—the brown.

Take off two stitches without knitting; knit six with the cerise.—Repeat, alternately, to the end of the round.

The next nine rounds are the same.

Knit one plain round with the brown.

Pearl three rounds.

Commence again with the cerise,—knitting four stitches only at the beginning of the

round ;—then take off two stitches, and knit six, alternately, as before.

These cuffs may be worked to any desired length, finishing off the same as at the commencement.

Gentlemen's Muffatees.

Cast on fifty-four stitches, in double German wool.—No. 14 needles.

First row—bring the wool forward, slip one ; knit two together.—Repeat.

Every row is the same,—the first and last stitches being plain. When finished they are to be sewn up.

Plain Ribbed Muffatees.

Four needles will be required.

Cast on each of three needles, eighteen or twenty-four stitches, according to the size desired.

First round—knit three ; pearl three ;—alternately.

Second and succeeding rounds—repeat the first.

Another Pair of Muffatees.

Three-thread fleecy, or Zephyr wool.—No. 13 needles.

Cast on thirty-six stitches.

Knit twenty plain stitches, and sixteen in double knitting.

When they are sufficiently large, knit or sew them up. The double knitting comes over the hand, the plain knitting setting tight to the wrist.

Knitted Cuffs, Shell Pattern.

These may be made either with silk, cotton, or fine wool.—Needles No. 22.

Cast thirty stitches on each of two needles, and forty on a third;—knit one plain round.

Second round—pearl one; pass the silk back, knit one; pearl one; bring the silk forward, knit one, by which you make a loop

stitch; repeat this five times, which, with the loop stitch, will make thirteen from the last pearled stitch. Commence the pattern again, as at beginning of round.

Third round—pearl one; knit one; pearl one; slip one; knit one, pass the slip-stitch over it; knit nine; knit two together.—Repeat to the end of the round.

Fourth round—same as third, except that there will be only seven plain stitches to knit.

Fifth round—same as third, with only five plain stitches.

There will now be the same number of stitches on the needles as at the commencement, viz.—seven for the shell part of the pattern, and three for the division.

Knit one plain round, except on the three division stitches, which are to be knitted as before.

Commence again as at second round. When the cuffs are of sufficient length, knit a plain round to correspond with the beginning.

The prettiest way of knitting these cuffs will be to work the first pattern in cerise;—the next five in white; the next five alternately in cerise and white; then five in white; and finish with one in cerise.

Double Knitted Cuffs.

These cuffs are prettiest in single German wool; two colours are required,—say claret and white. They will take sixteen skeins of white, and eight of claret wool.—No. 13 needles.

Cast on forty-six stitches in claret,—pearl four rows. Pearl one row white; in the next,—bring the wool forward, knit two together:—repeat these two rows of white, twice,—making altogether six rows. The four rows of claret in pearl knitting, and the six rows of white are now to be repeated, alternately, until six stripes of each are worked. Then,—

Pick up seventy stitches in claret, on the

right side, at one of the narrow ends, and pearl one row. Repeat the six rows of white, —finishing with the four rows of claret, and cast off.

Repeat the same at the other end of the cuff, —observing that the knitting of the frill is to be on the wrong side.

Sew up the cuffs, and double them, so as to allow the frill, at the one end, to appear above that at the other.

A Brioche.

The *Brioche* knitting-stitch is simply—bring the wool forward, slip one; knit two together.

A Brioche* is formed of sixteen straight narrow stripes, and sixteen wide stripes, the latter gradually decreasing in width towards the top or centre of the cushion. It may be made in

* So called from its resemblance, in shape, to the well-known French cake of that name.

three-thread fleecy, or double German wool, with ivory or wooden pins, No. 8.

Cast on ninety stitches, in black, for the narrow stripe; knit two turns;—then, three turns in gold colour, and two turns again in black. This completes the narrow stripe.

The conical stripe is knitted as follows:—bring the wool forward, knit two together, twice, and turn; knit these two, and two more of the black and turn; continue this,—taking each time two more stitches of the black. until within two stitches of the top, and turn; the wool will now be at the bottom, or wide part of the stripe. Commence again with the black, as in the former narrow stripe, knitting the two back stitches at the top. It may be also as well to diminish the narrow stripes by turning when within two stitches of the top, in the centre row of gold colour.

By a *turn* is meant one row and back again.

The colours for the conical stripes may be

any two or four colours, which assort well together; or each may be different. When the last conical stripe is finished, it is to be knitted to the first narrow stripe.—The brioche is to be made up with a stiff bottom of mill board, about eight inches in diameter, covered with cloth. The top is drawn together, and fastened in the centre with a tuft of soft wool, or a cord and tassels. It should be stuffed with down, or fine combed wool.

Fringe Pattern Knitting.

Cast on any even number of stitches, in German wool.—No. 10 needles.

Turn the wool round the needle, bringing it in front again; knit two together, taken in front.

Every row is the same.

An Opera Cap.

No 10 needles.—Double German wool, or three-thread fleecy.

Cast on eighty stitches,—white.

Pearl one row, }
Knit one row, } white.

Pearl one row,—coloured. In the next row,—
Bring the wool before the needle, and knit
two stitches together.

Pearl one row, }
Knit one row, } white.

Pearl one row, }
Knit one row, } white.

The above forms the border.

First division—coloured.

Pearl one row.

Knit one row, decreasing one stitch at each end.

Knit one row.

Knit a fancy row, by bringing the wool forward, and knitting two stitches together.

Second—white.

Pearl one row, decreasing one stitch at each end.

Knit one row, decreasing two stitches at each end.

Knit one row, decreasing one stitch at each end.

Knit a fancy row as before.

Third—coloured.

Pearl one row, decreasing one stitch at each end.

Knit one row, decreasing one stitch at each end.

Knit one row, *without* decreasing.

Knit the fancy row as before.

Fourth, Fifth, Sixth, Seventh—

The third division is to be repeated, alternately with white and coloured wool.

Eighth—white. *Ninth*—coloured.

In these two last divisions, only two stitches are to be decreased in each; this is to be done in the row after the pearl,—decreasing one stitch at each end.

N.B. There should be forty-six stitches left on the needle in the last row.

Pick up thirty stitches on each side, and

make the borders at the sides and back like that in front.

Make up the cap by turning in the border, to the fancy row, and hem it all round: it is to be tied behind, and under the chin, with ribands or plaited wool, with tassels of the same.

A Sontag, or Cephaline.

The border for this cap is worked the same as the preceding, casting on one hundred and two stitches;—single German wool;—No. 15 needles.

Knit one row in white, to bring the pearl on the right side. Then,—

With the darkest shade, bring the wool round the needle, pearl two together; pearl one.—Repeat to the end of the row.

In the next row—bring the wool forward, knit two together; knit one.—Repeat to the end of the row.

Knit forty-two rows in the same manner, taking in one stitch at the end of almost every row, so that the number of stitches in the last row is reduced to seventy-two, taking care to keep the pattern regular, and changing the colour every two rows.

Take up forty stitches on each side, and knit one row of white round all the three sides: knit another row to make the pearl, and finish the border with white and coloured wool, as in the preceding cap. Finish with ribands, or cords and tassels.

The border is knitted in white, and the middle shade of whatever colour is used in the head piece. This is prettiest in five distinct shades of any colour, with one or two rows of white between each division of shade.

A Bonnet Cap.

Cast on ninety stitches, in hair-brown German wool, for border.—No. 16 needles.

First, second, and third rows—plain knitting.

Fourth row—bring the wool forward, knit two together. Then,—

Commence with another colour—say white.

Fifth, sixth, and seventh rows—plain knitting.

Eighth row—bring the wool forward, knit two together.

Repeat these last four rows seven times : then the brown border as before. They form a band of about four inches wide, which is to be drawn up at the two ends, and strings attached to tie it close to the chin.

Then, cast on forty stitches and commence another band with the brown border as above, —three rows of the pattern in white, and repeat the brown border. This is to be sewn or knitted on to the head piece, and forms the band for the back. A ribband is to be run through it, to tie it close to the head.

Double Knitting for Comforters, etc.

Large-sized needles, No. 1, and four-thread fleecy, will be required.

Cast on any even number of stitches.

First row—bring the wool forward, slip one; pass the wool back, knit one, turning the wool twice round the needle.—Repeat to the end of the row.

Every succeeding row is the same.—The stitch knitted in one row, is the slip-stitch in the next.

Knitted Lace.

Cast on twelve stitches with very fine cotton, or thread.—No. 25 needles.

First row—slip one; knit two; pearl one; knit two together; turn the thread once round the needle, knit two; pearl one; knit one; turn the thread once round the needle, knit two, taken together at the back.

Second row—slip one; knit one; turn the thread twice round the needle, knit two; pearl two together; turn the thread once round the needle, knit one; pearl two together; turn the thread twice round the needle, pearl two together; knit one.

Third row—slip one; knit two; pearl one; knit two; turn the thread once round the needle, knit two together, taken at the back; knit one; knit two together; knit three.

Fourth row—slip one; turn the thread once round the needle; pearl one; knit two together; turn the thread once round the needle, knit four; pearl two together; turn the thread twice round the needle, pearl two together; knit one.

Fifth row—slip one; knit two; pearl one; knit two; knit two together; turn the thread twice round the needle, knit three; pearl two together; knit one.

Sixth row—slip one; knit one, pass the

slip-stitch over it; slip one; knit one; pass the slip-stitch over it; slip one; knit one, pass the slip-stitch over it; slip one; knit two; turn the thread once round the needle, pearl two together; turn the thread once round the needle, pearl two together; knit one; turn the thread twice round the needle, pearl two together; knit one.

There should now be twelve stitches on the needle as at the commencement.—Repeat from the first row.

Knitted Insertion.

Cast on nine stitches in fine cotton; No. 23 needles. Slip one; knit two; bring the cotton forward, knit two together; knit one; bring the cotton forward, knit two together; pearl one.—Repeat.

This may be used for trimming muslin curtains, etc.

Cast on two stitches.—No. 2 needles, rather short.

Turn the wool round the needle, so as to bring it in front again; knit the two stitches, taken together in the front.

Every row is the same.

Barley-corn Stitch.

Cast on any uneven number of stitches, with eight-thread Zephyr fleecy, or double German wool, and No. 2 needles.

Slip the first stitch, keeping the wool in front of the needle; turn the wool round the needle, so as to bring it in front again; knit two together, taken in front. Continue turning the wool round the needle, and knitting two together, to the end of the row. All the rows are the same.

The two stitches, which are to be taken together, appear always as if tied together.

A Muff, in colours of Sable.

Cast on seventy or eighty stitches.

First, second, and third rows—plain knitting.

Fourth row—bring the wool forward, knit two together, taken at the back.—Repeat to the end of the row.

Repeat these four rows, until the piece be about eighteen inches long, admitting that the shading comes in correctly.

Two No. 8 needles are required, and double German wool, in four distinct shades to match the colour of sable. Commence with the lightest shade,—then the second, third, and darkest, reversing them again to the lightest.

Another Muff.

Cast on forty-five stitches.—No. 8 needles.

Every row is worked the same, with a slip-stitch at the beginning;—knit one; pearl one.—Repeat to the end of the row.

It will require a piece of about twenty inches long, to make a moderate-sized muff, which should be lined with gros de Naples, and stuffed with wool, and a sufficient quantity of horse-hair to retain it in shape. Cord and tassels, to match the colour of the muff, may be sewn at the ends; or it may be drawn up with ribands.

Knit twenty turns, plain—increasing one stitch every other turn.

Repeat the twelve turns as at the commencement.

THE TWELVE FOLLOWING PATTERNS ARE INTENDED FOR DOYLEYS, TIDIES, FISH OR BASKET NAPKINS; THEY ARE TO BE WORKED WITH NO. 14 KNITTING COTTON, AND NO. 19 NEEDLES.—THEY MAY ALSO BE ADAPTED, WITH A CHANGE OF MATERIAL, FOR SHAWLS, COUNTER-PANES, BAGS, AND MANY OTHER ARTICLES.

—knit, in plain knitting, the stitches required for the pattern, then fasten off, by making a loop, and commence again with the ground colour,—fastening on again as above. Second and following rows—repeat the first, —every row being alike.

If the wool be split, it exactly imitates the Shetland wool. In splitting, the wool will frequently break; but this is not important, as by laying the ends contrariwise, and twisting them together, a few stitches may be so knit, that the joins are not perceptible.

Both ends of the scarf are to be made alike, by reversing the knitting of the border. They may be finished with a tied, knitted, or netted fringe, of the same wool, without splitting, or of fine German wool.

It may be as well to remark, that two rows are knitted at the back, and two at the front.

Another Quilt.

This should be knitted in stripes of six inches in width.—Cast on any number of stitches that may be divided by three;—German quilt wool.—No. 1 needles.

First row—bring the wool forward, slip one; knit two, pass the slip-stitch over them.—Repeat.

Second row—pearl knitting.

Third row—knit two, before the pattern is commenced, that the holes may come in a diagonal direction.

Fourth row—pearl knitting.

Fifth row—same as the third.

A Quilt, or Coubre-Pied, in squares.

This may be worked with Zephyr fleecy,—No. 9 needles, each piece being about three and a half inches square. Every square is worked in two colours,—as blue and white; lilac and white; gold colour and white; green and white; etc. These pieces are afterwards to be joined together, arranging them according to their several colours. Each square, however, if preferred, may be worked the same. The following directions are for a square in green and white :—

First row—bring the wool forward, knit one,—in green. Work *five more rows*, in the same manner, when there should be seven stitches on the needle.

half of the square being completed. The decreasing then commences, as follows:—

Nineteenth row—slip one, knit two together, knit one, green ; knit eleven, white ; knit four, green.

Twentieth row—slip one, knit two together, knit one, green ; pearl eleven, white ; knit three, green.

Twenty-sixth round—knit two together; knit four.—Repeat.

Twenty-seventh round—knit two together; knit three.—Repeat.

Twenty-eighth round—plain knitting.

The crown is now finished; it is to be drawn up with a needle and wool.

The opening at the back must be sewn up; and a band, corresponding with the plain knitting in front, is to be formed by raising fifty-six stitches in pink, and knitting three plain rows, with the No. 18 needles. Then, with white, cast sixteen stitches on the same needle, and knit seventy-two stitches: cast on sixteen stitches, and knit three rows of eighty-eight stitches. In the next row,—bring the wool forward, knit two together. Knit six plain rows.

With the large needles, form the ruff, by knitting two rows in white, and two in pink; then, work twenty-row rows—knitting four rows in white, and two in pink, alternately. Cast off, and sew it, so as to form a very loose double ruff round the throat.

For the front of the hood, raise eighty-two stitches, and, with the No. 18 needles, knit one plain row. Then, with the large needles,—knit two plain rows in white; two in pink; and four in white. Cast off. — This, when sewn double, finishes the borders of the hood. It is to be drawn, with ribands, at the back and front.

A Baby's Sock.

Cast on twenty-eight stitches in *pink* German wool.—No. 19 needles.

Knit six turns, increasing a stitch at each row, to form the toe and heel.

Knit six more turns, increasing a stitch at one end only, for the toe.

Cast off thirty stitches on another needle;—knit the remaining sixteen stitches, for eighteen turns, and cast them off on another needle.

With *white*,—pick up the thirty pink stitches;

—knit three plain rows;—in the next row, bring the wool forward, knit two together.

Knit three plain rows; leave sixteen stitches on the needle, and repeat the pattern in white, across the instep, seven times, which is afterwards to be sewn to the pink knitting for the toe.

Cast on sixteen stitches in white,—to correspond with the other side.

Knit two plain rows;—in the next, bring the wool forward, knit two together,—the whole length of the row;—knit one plain row in pink, taking up the stitches that were cast off for the toe. This side of the shoe is to be made to correspond with the other, by decreasing instead of increasing.—The shoe and the white in the instep will now be finished.

Pick up the stitches both of the shoe and instep;—knit three plain turns. Take a larger needle, bring the wool forward, knit two together; forming the holes to pass the ribband through.

Knit three plain turns with the small needle. In the next row, bring the wool forward, knit two together.

Knit three plain rows.—In the next,—bring the wool forward, knit two together; repeat the same, until the sock be of the height desired.—Cast off very loosely.

Another Baby's Sock.

Four-thread fleecy, or four-thread *Lady Betty's* wool.—No. 11 needles.

Cast on twenty-six stitches.

First row—pearl two; knit two; alternately, to the end of the row.

Second row—knit two; pearl two.

Third row—pearl two; knit two.

Fourth row—pearl knitting.

Repeat the above four rows, twelve times,—making altogether fifty-two rows—but, in the fifty-second row, pearl fourteen stitches only,

and cast off the remaining twelve stitches. Then,—

Raise fourteen stitches, pearling them at the same time, at the commenced end, leaving twelve, to correspond with those cast off at the other end. Repeat the four rows, as before, three times,—making in all twelve rows. Fasten off, by drawing up these stitches with a needle and wool, to form the toe, and sew up the shoe at the sole.

Twenty-seven stitches are now to be raised at the top of the shoe, round the leg; then,—alternately pearl one row, and knit one row, for five rows, and cast off.—This forms a finish to the top. The shoe is to be laced across with ribbands.

A Baby's Stocking.

—Cast on twenty-three stitches in brown,—No. 18 needles, and knit six turns,—increasing one stitch at each end, for the toe and heel.

Knit six turns, increasing one stitch only, at the toe. There will now be forty-one stitches on the needle. Cast off twenty-five stitches, and knit the remaining sixteen stitches, for eighteen turns. One side of the shoe and instep will now be made.

Cast on twenty-five stitches, and work the other side of the shoe to correspond.

Pick up the stitches, with white, across the instep. Knit two turns, catching in one loop of the sides of the shoe, in each row, to join them together.

Knit one turn in brown; two in white; one in brown; two in white; and one in brown.—The shoe and instep will now be finished.

Pick up the stitches of the shoe, on each side of the piece which forms the instep. There should now be forty stitches on the needle.

Knit seven turns in white; then, eighteen turns, increasing a stitch at the beginning and end of every other turn. Knit three plain

turns; then eighteen turns,—decreasing one stitch in every other turn, at the beginning and end.

Forty stitches will now be found on the needle. Knit and pearl two, alternately, for five turns. Knit two plain rows. Knit one row in red; then, cast off loosely.

The shoe is to be sewn up into its shape, and the stocking closed up.

A Carriage Boot.

Two colours,—say blue and claret,—four, or six-thread fleecy,—Needles No. 6.

Cast seventeen stitches on each of three needles, with claret; pearl six rounds, knit five rounds.—Then,—

With blue,—knit one round, pearl one round, alternately, for six rounds.

With claret,—repeat the last six rounds.

Repeat the two last stripes, twice. Then,—

From the first needle,—knit fourteen stitches, with claret; join on the blue; knit twenty-three, leaving fourteen stitches (claret), corresponding with the other side, on the third needle; then, turn back and knit five rows, slipping the first stitch at the commencement of each row.

Repeat the last stripe, three times; first—with claret; second—with blue; third—with claret.

In the next three stripes of the alternate colours, knit two together at the commencement, and end, of every third row. Then,—knit one stripe (claret), knitting two together at the commencement of each row. Cast off.—This finishes the front of the boot.

Commence again at the fourteen claret stitches that were left on the first needle,—knit these, and cast on another thirty-six stitches in claret; knit six plain rows.—In the next row, knit two together, at the commencement.

Knit nine more rows, knitting two together at the commencement of every other row.—In the next four rows,—knit two together at the commencement of each row.—This completes the first half of the foot.

Knit the fourteen remaining stitches on the third needle, casting on thirty-six stitches, as before, and finish the other half of the foot in the same manner.

The two halves of the foot are then to be sewn together, and the foot sewn to the front of the boot.

A Double-Knitted Right Sock.

Cast on eighty-eight stitches in white, four or six-thread fleecy.—No. 3 needles.

N.B. In every row the first stitch is to be slipped;—the last stitch is to be plain knitted.

First row—plain knitting.

Second row—knit one, pass the wool forward; slip one, pass the wool back.—Repeat.

Repeat the second row, twenty-eight times.

Thirty-first row—knit sixty-two stitches, the same as second row ; then,—knit two together, to the end of the row.

Thirty-second row—cast off twenty-five stitches ; knit thirty-eight stitches, same as second row ; cast off remaining twenty-five stitches.

Knit twenty rows, the same as second row.

Fifty-second row—slip one ; knit two together ; knit fourteen stitches, the same as second row ; knit two together ; knit the remaining stitches, the same as second row.

Fifty-third row—repeat the last.

Repeat the last row, seven times.

Sixty-second row—slip one ; knit two together ; knit eight stitches, the same as second row ; knit two together ; knit the remaining stitches, the same as second row.

Sixty-third row—repeat the last.

Knit three rows, the same as second row.

Draw up the stitches for the toe, and sew up the back and front.

A Frileuse or Neck Tippet.

Cast on thirty stitches, with double German wool.—Needles, one inch and three quarters in circumference.

Plain knit thirty rows, slipping the first stitch of every row.—Cast off loosely.

Tie with cords and small tassels.

Wheel Pattern for Tidies, etc.

Flax knitting thread, No. 10.—Needles, No. 18. Cast on any number of stitches that can be divided by ten.

First row—knit one; bring the thread forward, knit three; slip one; knit two together, pass the slip-stitch over them; knit three; bring the thread forward.—Repeat.

Second row—plain knitting.

Repeat these two rows, alternately.

Knitted Coral.

Cast on four stitches, with fine flat scarlet worsted braid, No. 19 needles.

Plain knitting, but slipping the first stitch of every row.

Hints on Knitting.

A plain stitch at the beginning of each row, commonly called an *edge stitch*, is a great improvement in most instances, as it makes an uniform edge, and the pattern is kept more even at its commencement. In most knitting, the edge stitch is slipped.

It is easiest to learn to knit, by holding the wool over the fingers of the left hand; the position of the hands is more graceful when thus held.

It is always advisable to cast off loosely.

When it is requisite to cast off, and continue the row on a separate needle, it is sometimes better to run a coarse silk through the cast off stitches; they are easily taken up, when required, and the inconvenience of the idle needle is avoided.

In knitting, when a pattern is spoken of, it means as many rows as form the pattern.

With one hundred and fifteen illustrative Engravings on wood, of Patterns, Implements, etc.

"We recommend it as containing a great deal of practical information respecting embroidery, frame work, knitting, netting, braiding, bead work, and other profound mysteries, of which we, of the uglier sex, know nothing... The historical portion is gracefully and well written—so that the work is a good book, instructive when the party consulting it desires instruction, and amusing whenever she is weary of work."—*Athenæum*.

"The most curious, complete, and erudite treatise on the art of needlework that has, probably, ever been compiled..The variety, fulness, and systematic arrangement of the book, not to say one word about its numerous

engravings, and the remarkably elegant style in which it is 'gotten up' demand unmixed applause."—*Atlas*.

"An eminently practical work; clear in its explanations, precise in its directions, natural in its arrangements. The style is simple and easy; the collateral information abundant. Its value is enhanced by historical notices, which have been prepared with judgment and knowledge, and are not disfigured by the slightest affectation."—*Polytechnic Review*.

AND EMBLEMATICAL BORDERS ON EVERY PAGE.

"This elegant volume will prove of great utility to those desirous to engage a portion of their leisure in "Church Needlework," but who are in need of

instruction to enable them to begin, and patterns to help them to continue. To such persons we may recommend a work, which, indeed, is sufficiently recommended by the well known name of the authoress."—*Church and State Gazette*.

"Miss Lambert treats the matter in a very creditable, and we may add, a very successful manner. Miss Lambert's previous works on the Art of Needlework bear a high character, especially for the distinctness and precision of their directions; and we recommend this volume as a suitable companion for them."—*English Churchman*.

"This is not only a very useful, but altogether a most elegant and beautiful volume, illustrated by a number of well executed engravings of devices of almost every kind appropriated for the use and adornment of churches and church furniture. Ample and particular instructions are given about the materials and mode of working the various articles."—*Church Intelligencer*.

"This volume is produced in a style of considerable elegance; it is full of fine examples of 'Ecclesiastical Needlework,' with practical remarks by a lady whose previous publications upon somewhat similar subjects, have made her an 'authority' upon all matters appertaining to Decorative Art, as influenced by the needle. The lady is a most pleasant writer; thoroughly conversant with the matters upon which she writes, perfectly free from affectation, and always clear, comprehensive, and intelligible."—*Art Union*.

"A work got up with exquisite taste. It is enriched with a variety of illustrations, is beautifully printed, and has borders on every page, which remind us of the flowers, foliage, and fruit-engravings of Grindling Gibbons. It is some time since—even from Mr. Murray's—we have looked through a more beautiful book than this. Miss Lambert has taken the highest stand; she views the subject both in its historical and practical bearings, in one light only—that of art.

It is surprising what a readable book she has produced upon this subject. It is full of antiquarian information, and completely introduces the mediæval Art of Church Needlework. It exhausts the subject; and the volume is worthy of a place in every Christian gentleman's library. The notes, in particular, exhibit much research. In a word, it is at once well timed, well written, and well got up."—*Oxford University Herald*.

"Here is another specimen of the beautiful typography which distinguishes the publications of several of the most eminent houses of the present day. Miss Lambert has also done her more important part admirably, and has given us a book on a good subject, full of instruction and interest."—

Cambridge Chronicle.
